Finnish volunteer organization
"APUA Ukrainaan ry"
To Anatoliy Artemenko

Dear Mr. Anatoly!

Due to the difficult situation in our country, which has arisen as a result of the full-scale invasion of the Russian Federation into the territory of Ukraine, many cities and villages have been destroyed, and numerous medical facilities have been damaged. This has led to the need for the establishment of additional medical and rehabilitation institutions.

We turn to you and kindly request your assistance in providing the following:

- Multi-functional beds;
- Ultrasound and ECG devices;
- Surgical and examination lamps;
- Printers
- Examination tables

and other medical equipment.

With great respect towards you, we do not have the moral right to specify the quantity of the aforementioned needs. Any assistance provided is a significant support to Ukrainians, especially those who have been injured and wounded as a result of the war.

Chairman of the Board

Shaulska Iryna
